Overview

Snippets (tiles) display when you open a visit in Total Mobile and allow you to quickly access a range of information about the Patient which is stored in the Patient’s Folio. You will be able to view the Patient Summary, Progress Notes, Patient Appointment Summary, Form Completion Summary, and Assessment Forms without starting the visit. Some Snippet tiles may just show information, whilst others will only become active once you have ‘arrived’ the visit.

Patient Summary

The Patient Summary provides you with information about the patient; for example, their Alerts and Allergies, who their Contacts are, which teams they have Referrals for and their BCHC Admission History.

Patient Appointment Summary

The Patient Appointment Summary provides information about the Patients Appointment History and Future Scheduled Appointments

Progress Notes

The Progress Notes allows you to view previously recorded Progress Notes for the patient

Form Completion Summary

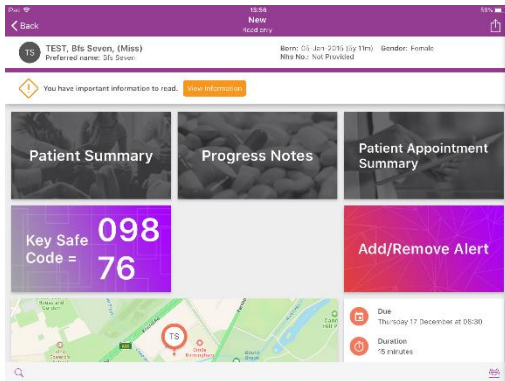

The Form Completion Summary will display a list of dates when electronic assessments forms were completed. This can be viewed before starting the visit.

Assessment Forms

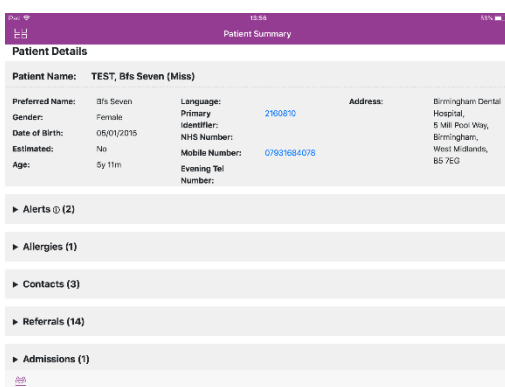

Assessment Forms that have been previously recorded electronically, will be available to view before starting the visit. These will be specific to your service.

Viewing Snippet Information on an iPad

Tap on one of the Snippet tiles to view information

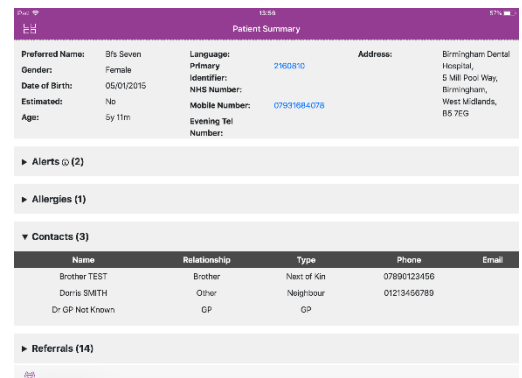

In this example, the Patient Summary

The information will display in sections, tap on a section heading to view the details

In this example, Contacts

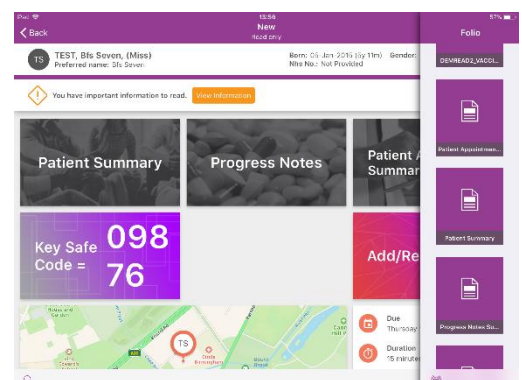

As long as the Personal Contacts have been recorded in RiO they will display on the Contacts list in Total Mobile

- Tap the **Folio List** icon  (top left) to **collapse** the information and view the Folio

- Tap on a **Folio** item to view the information

- Tap the **Folio** icon  (bottom below the Folio) to **close** the Folio and return to the visit

Viewing the Folio on an iPad

- Tap on the required Visit
- Tap the **Folio** icon (bottom right) 

The **Folio** Information displays in a list

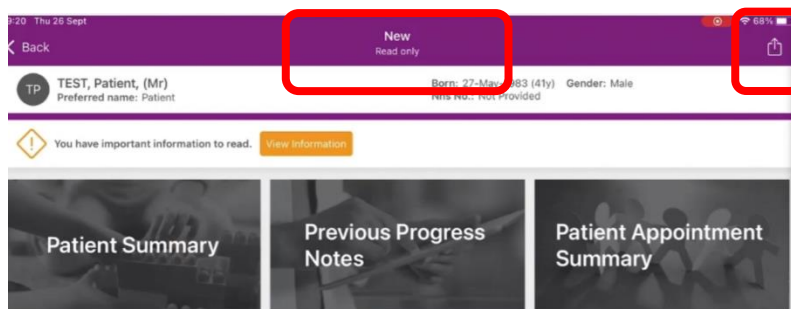

- Tap the required Folio item e.g. Progress Notes

The Information will display

- Tap **Folio List** icon (top left)  to re-display Folio items
- Tap the **Folio** icon  or swipe to right to close the Folio

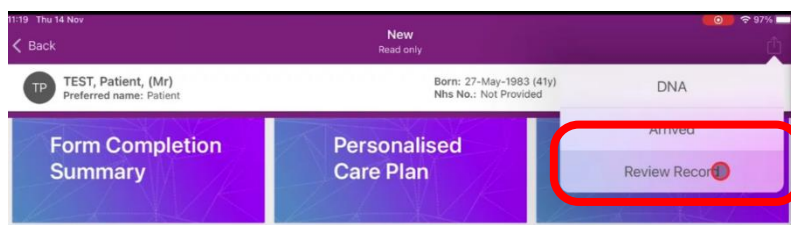

Viewing Assessment Form Snippets on an iPad

There are also other Assessment Forms and a Form Completion Summary, that can be viewed, which will be specific to your service.

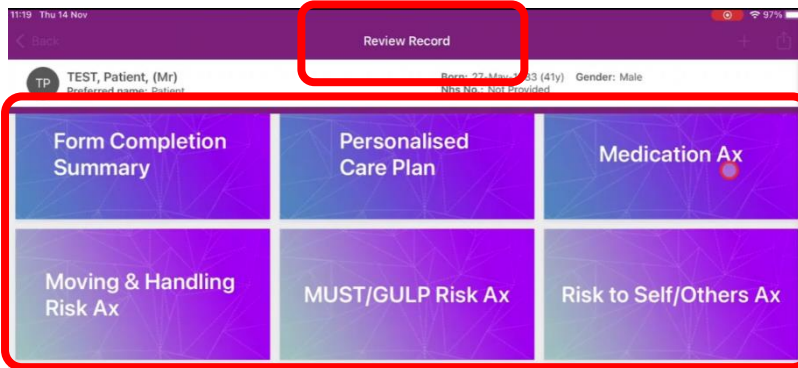

When you open a visit from your list, it displays as **New, Read Only**

- Select the **Status** icon  (top right)

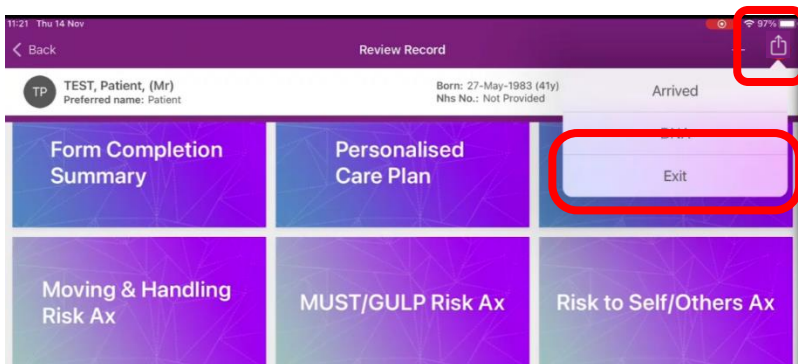

- select **Review Record**

Viewing Snippet & Folio Information

The status changes to **Review Record**

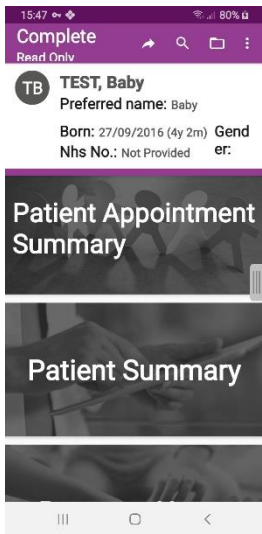

Now you can review the Form Completion Summary and any other Assessments Forms

- Select **Status** icon and **Exit** to return to the **New, Read Only** status

Viewing Snippet Information on a Smart Phone

Tap on one of the **Snippet tiles** to view information

In this example, the Patient Appointment Summary

The information will display in sections, tap on a section heading to view the details

In this example, Appointment History

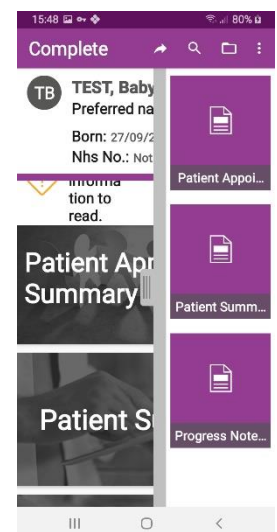

Previous appointments will display for the patient, you will need to rotate the phone and/or scroll side-wards to view the appointment information

- Tap the **Back** button (bottom right of screen)  to collapse the information and view the **Folio**

- Tap on a **Folio** item to **view** the information

- Tap the **Folio** icon  (top of screen above the Folio) to **close** the **Folio** and return to the visit

Viewing the Folio on a Smartphone

- Tap on the required Visit

- Tap the **Folio** icon (top right) 

The **Folio** Information displays in a list

- Tap the required Folio item e.g. Progress Notes

The Information will display

- Tap the Back button (bottom right of screen)  to collapse the information and view the Folio
- Tap the Folio icon  (top of screen above the Folio) to close the Folio and return to the visit
