Diagnosis

Contents

A clinician may be required to make a diagnosis for a client and record it onto the Rio electronic patient record.

Accessing a Diagnosis

- Click **Menu**

- Click **Quick Menu**

- Click **Client's View**

Search for Client using Client ID, NHS Number or Demographical data.

Clinical Portal – Client's View screen will display

Locate the Navigation pane (right)

- Click **Case Record**

- Click **Diagnosis**

The Diagnosis screen now displays and will show any current diagnosis recorded.

Adding a Diagnosis

- Click **Add Diagnosis**

A Diagnosis term (for example Epilepsy) will need to be entered into the **Add Additional Diagnosis** field; any matching diagnosis will be displayed automatically inserting the appropriate code below

- Click **Code:**   Z82.0 (example)

- Select **Code/Code Description** and the details will turn blue

Once the Code shows blue this can be dragged across to the top of the right side of the screen, into Selected Diagnoses, as displayed below:

Selected item (G40)			✕
Selected Diagnoses		Add Additional Details	
Code	**Description**		**Select**
G40	Epilepsy		☐

Adding Additional Details

- Click **Select:**   ☑

- Click **Add Additional Details**

Here you can record the Condition Onset Date or any comments

- Click   Update

- Click   Save Diagnoses

Diagnoses View

Lists all diagnoses recorded for the client

Diagnoses View	Event View	Coding Scheme: ICD10			> Expand All
Diagnosis			**Entry Details**	**Linked ...**	
G40 - Epilepsy			**Diagnosed On:** 2 Jun 2025 **Onset Date:** 18 Feb 2020 **By:** PETTITT, Janice **Comment:** diagnosed at 25 years of age	0	SCT ☐

Viewing SNOMED Code Summary

In the Diagnoses View link you can view any other SNOMED codes linked to the client's record

- Click **G40** (Code example)

SNOMED Summary displays allowing the user to filter as required.

Filter Source

- Click **All**   ☑

You may add a Filter Period or Inpatient Episode if required

- Click **Filter**

Filter Source			
☑ All ☑ Substance ☑ Reaction Type ☑ Reaction ☑ Severity of Reaction			

Source	Date SNOMED Clinical Term Added	SNOMED Clinical Term	Entered By
Reaction	30 Apr 2025, 08:07	Sneezing (finding)	Charan Bhatti
Reaction Type	30 Apr 2025, 08:07	Allergic reaction caused by substance (disorder)	Charan Bhatti
Severity of Reaction	30 Apr 2025, 08:07	Moderate (severity modifier) (qualifier value)	Charan Bhatti
Substance	30 Apr 2025, 08:07	Pollen (substance)	Charan Bhatti

Filter Period: First Contact

Inpatient Episode: Please Select ☐ Include Removed

Urgent Care Attendance: Please Select ☐ Include Removed

Filter

- Click **Close**

Removing a Diagnosis

You may remove a diagnosis, but it will remain in the historical view of the Client's record.

Select the Diagnosis you wish to remove by clicking the checkbox

Diagnoses View	Event View	Coding Scheme: ICD10				> Expand All
Diagnosis			**Entry Details**	**Linked ...**		
G40 - Epilepsy			**Diagnosed On:** 2 Jun 2025 **Onset Date:** 18 Feb 2020 **By:** PETTITT, Janice **Comment:** diagnosed at 25 years of age	0	SCT	☑

- Click [Remove Active Diagnoses]

Remove Diagnosis screen displays for you to complete as required, note the mandatory fields are in pink and display with an *

Removal Reason

Date of Removal/End of Diagnosis

Removal Comments

- Click [Remove]

Remove Diagnosis   ✕

Removal Reason: *   Date of Removal / End of Diagnosis: *

Entered In Error ▼   2 Jun 2025   📅   Yesterday   Today

Removal Comments:

Entered on wrong patient

[Remove] [Close]

The diagnosis has now been removed from the record.

Showing Removed Diagnoses

Once a diagnosis has been removed, the Rio system will keep the history of the diagnosis on the patient's record but hidden from view.

- Click [Show Removed Diagnoses]

The Entry and Removal Details will display.

Removal Details	**Entry Details**
On: 2 Jun 2025 **By:** PETTITT, Janice **Reason:** Entered In Error **Comment:** Entered on wrong patient	**Diagnosed On:** 2 Jun 2025 **Onset Date:** 18 Feb 2020 **By:** PETTITT, Janice **Comment:** diagnosed at 25 years of age

- Click [Hide Removed Diagnoses]

You are now back into your main Diagnosis screen.
