Overview

When the Episode of Care is complete you MUST Discharge the Client from the Ward and then Discharge the Referral

Discharging from the Ward

- Open your ward in **Bed View**

The **Inpatients** screen will display

- Click on **Patient's Bed icon**
- **Hover** on **Patient's name**
- **Hover** on **Discharge**
- Click **Discharge Patient**

The **Inpatient Discharge** screen will display

- **Discharge Date Time:** Enter the date/time the Patient was discharged
- **Method:** Complete as required
- **Destination:** Complete as required
- **Destination Address:** Complete if required by entering the **Postcode** and selecting from the list or click **Manual Entry** and enter the address

Destination Address	Enter postcode or address. Use commas to separate search terms
<input type="text"/>	
<input type="button" value="Manual Entry"/>	

- **Comment:** Complete if required
- Click **Save**

The **Inpatients** screen will display in **Bed View** and the bed will now be empty

Now the Patient has been discharged from the ward, their referral will also need to be discharged.

Inpatient Discharges

Discharging the Referral

- Click **Menu > Quick Menu > Referral**

The **Search** Screen will display

- **Search** for the Patient you have just discharged
- Locate the **referral for your Team**
- Click the **green button**  in the **To Discharge** column

The **Discharge Referral** screen will display

- Enter any **Comments**
- Select the **Discharge Date/Time**
- Select **Discharge HCP**
- **Select RTT Discharge Reason (only if the service is RTT)**
- Select **Discharge Reason**
- Click **Save Discharge Details**

Commented [BA(CHNFT1): Are any of our inpatient services RTT?
Commented [BA(CHNFT2R1): I don't think this line needs to be added

The **discharged** referral will display in **pink** below any active referrals
